DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, 5, 6, 14, 16-20, drawn to a method of treating or preventing metastasis of cancer cells, classified in class 435, subclass various.
- II. Claims 7, 13, 15, 21-25, drawn to a method of inducing the expression of beta 1 integrin molecules in cancer cells, classified in class 424, classified in class various, subclass various.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. In the instant case the different inventions are unrelated since they differ in function and desired effect. A method of treating the metastasis of cancer and a method of inducing the expression of beta 1 integrin molecules in cancer cells are totally different in their mode of operation and effect of the invention.

Application/Control Number: 09/784,005
Art Unit: 1654

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
